DAY 2 AND 3 – July 14th and 15th – POUSADA TRIJUNÇÃO – Activities (B/L/D)

As comfortable as the suites are, it is impossible to stay inside, since nothing replaces the region's nature beauty. Be it the unique sunset, or following the discreet elegance of the maned wolf, Pousada Trijunção provides daily and shared guided experiences throughout the vastness of the Cerrado. Each activity is expected to have a short duration, so guests can return to the Pousada and rest before continuing to another tour. As the schedule is planned to be flexible and as tailor made as possible, breakfast can also be served at any time of the day, eliminating the concern of a fixed schedule, and ensuring comfort and convenience.

DAY 4 – July 16th, Wednesday – POUSADA TRIJUNÇÃO / BRASÍLIA / OUT (B)

At the appropriate time, check-out. Pousada Trijunção property is located 388km distant from Brasília, and the transfer can be made by car (5h) or with a chartered airplane (50min) (not included). Fly to your next destination. End of services.

*Depending on your departure time, lunch (L) can be included at Pousada Trijunção (please consult us).

Check-out at Pousada Trijunção ends at 12:00 PM (noon)

EXPERIENCES AT POUSADA TRIJUNÇÃO

The activities below can be shared with other guests. The schedule is provided by Fazenda Trijunção and decided locally according to the guest's profile and weather condition.

Maned Wolf: The maned wolf is one of the most fantastic animals of the Cerrado, and one of the greatest examples of its diversity. It is threatened with extinction, but some individuals inhabit the limits of Fazenda Trijunção. In partnership with the Onçafari NPO, Trijunção maintains a research project dedicated to its preservation. Guests can visit the project – and witness its greatest star, in his home habitat.

Kayak trip to the Rio Formoso: A kayak or motorboat ride through the lagoon, where Rio Formoso springs from, is a unique opportunity to take advantage of the tranquility of the Cerrado, its beauty and surrounding life. You can be welcomed by bands of local macaws, which often fly over visitors.

Guided bicycle tours (3km-5km-10km): The flat formation of the Cerrado is perfect for bike rides. In equipment suitable for the terrain, the guests can explore the Cerrado - on ever-expanding tracks - including a drive to border between 3 different States and Regions in Brazil - the landmark that gives its name to both Fazenda and Pousada.

Birding: At Fazenda Trijunção it can be found more than 210 species of birds, and among them, there are many notable species for their rarity, beauty, or particular behaviors. To be able to observe them living a free life, accompanied by an expert guide, is an opportunity to connect uniquely with Nature.

Visit to the Grande Sertão Veredas Park: To walk around the National Park Grande Sertão Veredas is to be reconnected with the exuberant simplicity of Nature, one that is so central for Brazil. This is the same place that inspired the famous Brazilian novelist, Guimarães Rosa, and that presented the Brazilian literature with some of its most beautiful novels.

Visit to the Conservationist Breeding Ground: Most of the initiatives of Pousada Trijunção are related to their conservationist breeding grounds. Guests can visit and understand the project of conservation of emus, peccary, and other wild animals. It is also possible to see them closer in a safe way – for both!

Visit to the tortoise nursery: In this attraction for children of all ages, the guests can visit the tortoise nursery and get to know the various stages of its growth.

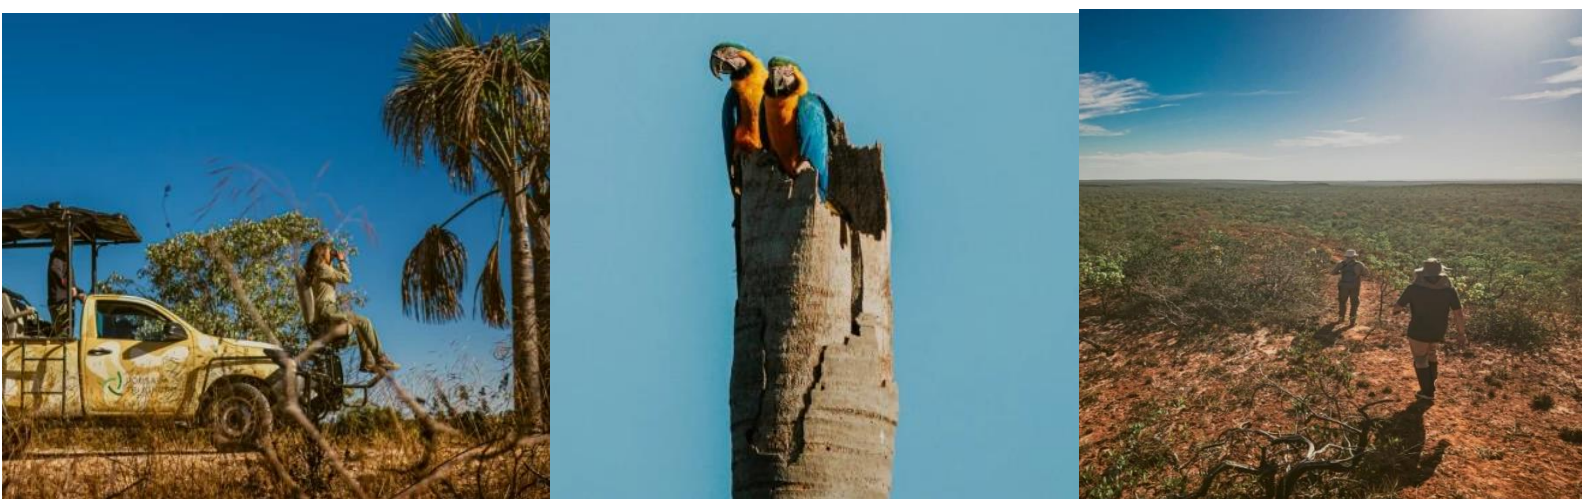

Stargazing: The isolated location of Fazenda Trijunção, away from the light pollution of cities, makes the Pousada a privileged place to observe stars, constellations, planets, and other celestial elements on its infinity. Enjoy being dazzled by the immensity of the night sky, as large and diverse as the Cerrado itself.

Alligator night spotting with kayak: After the beautiful sunset in the Cerrado, and in guided kayaks through Lagoa das Araras, the guests have the opportunity to observe a diverse and mysterious fauna, including the smallest species of alligator in the world - the dwarf alligator - which inhabits the lagoon.

Eco-Safari at night: Many animals are most active late afternoon and early evening when they find protection in darkness and greater thermal comfort. It is at this moment that guests, accompanied by specialized guides, have the opportunity to board on specially adapted safari truck and explore Fazenda Trijunção roads. Under the mantle of the night, powerful lanterns make the animals' eyes shine, increasing the chance of locating them in the darkness. In addition to different species of nocturnal birds, including urutau, bacuraus and owls; mammals such as maned wolf, field fox, skunks, armadillos, anteaters, tapir and even – if luck – pecan and jaguar are among the animals that can cross our path.
